

Figure 1 is a line graph showing the relationship between the number of nodes in the graph (Y-axis) and the number of nodes in the P.F. graph (X-axis). The Y-axis ranges from 840 to 970, and the X-axis ranges from 840 to 1100. The graph displays a series of curves for different P.F. graph sizes, ranging from 840 to 1100. The curves show that the number of nodes in the graph increases as the number of nodes in the P.F. graph increases, with the rate of increase slowing down as the P.F. graph size increases.

P.F. @ size	Graph @ size
840	840
850	850
860	860
870	870
880	880
890	890
900	900
910	910
920	920
930	930
940	940
950	950
960	960
970	970
